

The following **Visitation Guidelines** are in effect  
as of **JANUARY 17<sup>th</sup>, 2022** until further notice.

All visitors will need to provide proof of a negative  
**PCR test within the last 48 hours**  
or  
**Rapid Test within the last 24 hours**

St. Camillus does offer rapid test kits on-site to  
use in the lobby area (self-administered).

*A COVID diagnosis within the past 90 days still requires a test.*

---

Please use cell phone to verify negative status of tests:

- Email proof for PCR tests taken outside of the facility.
- Cell phone photo for all Rapid Tests (in or outside facility)  
If you do not have a cell phone available, please bring test kit  
to front desk for verification.

PLEASE NOTE:

- All visitors are required to complete the health screen and attest to the self-administered test
- The check-in process may take up to (20) minutes to receive approval for visitation
- Visitors are not required to show the front desk any positive test but rather are asked to leave the lobby area immediately. It's recommended to follow up with your physician and the County Health Department, as applicable.
- The facility will provide a visitation pass if you plan to visit again within 24 hours of your clearance; you will not have to test a 2<sup>nd</sup> time within that 24-hour time period.

*We appreciate your understanding and support with the new visitation protocol.*
